ARMORED CRUISER INFANTA MARIA TERESA.

The Infanta Maria Teresa is so much like the Vizcaya and Almirante Oquendo that it is unnecessary to describe her. Like her sister ships, she is a powerful fighting machine in proper hands. She is one of the favorite vessels with the Spanish populace, possibly because of her name.

Infanta Maria Teresa, one of Cervera's vessels, will be floated as soon as a small leak can be located in the bow. Her own pumps are being used, there being steam in one of her boilers.

Thorn Still Game, rowing crime. Sing Sing, N. Y., July 30.—About the bravest wait for death ever witnessed by the prison officers here is that of Martin Thorn, the condemned murderer, who so brutally slew Mrs. Guldensuppe, the bath rubber, mutilating the body terribly, under the direction of Mrs. Nack, now serving a term in this same institution for her part in the soul-har-

The infant industry of Hopkinsville is flourishing as it never flourished before. There seems to be a regular epidemic of babies. At the present rate of multiplying Hopkinsville will soon be in the third class.

## PONCE

## Is Ours. Without a Shadow of Resistance.

## Gen. Miles Welcomed as a Deliverer by the Porto Ricans.

Port of Ponce, Porto Rico, via the Island of St. Thomas, D. W. I., July 30.—The port of Ponce surrendered to Commander C. H. Davis, of the auxiliary gunboat Dixie, Wednesday. There was no resistance, and the Americans were welcomed with enthusiasm. Major Gen. Miles arrived here Thursday morning at daylight with Gen. Erna's Brigade and immediately started for the town of Ponce, three miles inland, with 50,000 population, which capitulated that afternoon.

The American troops are pushing towards the mountains, and will join Gen. Henry with his brigade at Guanica, which has been captured by our troops.

A fight before the latter place on Tuesday last was won by the American volunteers. The Spaniards ambushed eight companies of the Sixth Massachusetts and Sixth Illinois Regiments, but the enemy was repulsed and driven back a mile to a bridge, where the Spanish cavalry charged and were routed by our infantry.

Gen. Garrison led the fight with the men from Illinois and Massachusetts, and the enemy retreated to Yauca, leaving four dead on the field and several wounded. None of our men were killed, and only three slightly wounded. The wounded are:

Capt. Gihon Barrett, Private James Drummond, Private H. C. Gary.

The Porto Ricans are glad the American troops are landed, and say they are all Americans and will join our army.

The roads are good for military purposes. Our troops are healthy, and Gen. Miles says the campaign will be short and vigorous.

Gen. Miles has issued the following proclamation to the citizens of Ponce and Porto Rico:

"In the prosecution of the war against Spain by the people of the United States in the cause of liberty, justice and humanity, its military forces have come to occupy the island of Porto Rico. They come bearing the banners of freedom, inspired by a noble purpose to seek the enemies of our government and of yours, and destroy or capture all in armed resistance. They bring you the fostering arms of a free people, whose greatest power is justice and humanity to all living within their fold. Hence they release you from your former political relations, and it is hoped, they will be followed by your cheerful acceptance of the government of the United States.

"The chief object of the American military forces will be to overthrow the armed authority of Spain and give the people of your beautiful island the largest measure of liberty, consistent with this military occupation. They have not come to make war on the people of the country, who for centuries have been oppressed, but on the contrary they bring protection."

## COLORADO OFFICERS.

## The Knights of Tabor Adjourned Last Night.

The next Grand Lodge meeting will be held at Paducah.

# WATER

## So Scarce That Condensers are Used.

## Cabinet Holds Another Meeting and Agrees Upon Terms.

Washington, July 30.—(Special.)—Gen. Shafter telegraphs that the Seguranca, Knickerbocker, Saratoga and Iroquois leave for Tampa to-night. The Miami and Matewan will be unloaded next. Have only forage aboard. They were retained till near the last because they condense 13,000 gallons of water each per day without which the troops could not get along.

Washington, July 30.—(Special.)—The Cabinet met again at 10:30. Senators Elkins and Proctor consulted with the President before the meeting. Elkins thinks the disposition of the Philippines should be deferred until the appointment of a peace commission. He expects a great deal of quibbling by the Spanish.

Talk in official circles is more pointed that the administration wishes to hold the settlement of the Philippines in abeyance till more is known of conditions there.

The Cabinet adjourned at 1 o'clock, the terms having practically been agreed upon. After a copy is sent to the French Ambassador they will be made public, but not this afternoon.

## Mason Backs the President.

## Opposed to Holding Anything.

Madison, Ill., July 30.—(Special.)—In a speech last night Senator Mason, of Illinois said:

"The United States should retain no conquered territory and exact no cash indemnity. We should not profess to the world that we are good Samaritans if we carry a bag on our backs wherein to deposit the profits of our holy calling."

## Heavy Mortality at Camp Alger.

## Coppinger Will Go to Porto Rico.

Washington, July 30.—(Special.)—Sixteen deaths from typhoid fever have occurred in six days at Camp Alger and the men are almost in a panic.

Secretary Alger this morning telegraphed Gen. Coppinger permission to join the Porto Rican army with such forces as he may select. Three transports are on their way to Tampa.

## Over 4,000 Are Still Sick.

## The Situation Slightly Improved.

Washington, July 30.—(Special.)—Gen. Shafter telegraphs the sanitary conditions at Santiago on the 29th:

Total sick 4,274. Sick with fever 3,406. New cases of fever since yesterday 696. Cases of fever restored to duty 970. One death occurred, Private McGoldrick, of the First Infantry, of asthma. A dispatch just received says Capt. Dodge, of the 24th Infantry has died of yellow fever since Shafter's report was sent.

## More News From Manila.

## A Sailor Killed by a Shell.

Manila July 30.—(Special.)—(Delayed in transmission.)—The German cruiser Cormoran has returned to Manila Bay, reports that George Archer, Steward on the collier Cyrus, was killed by the explosion of a Spanish shell taken at Cavite from the Cavite arsenal. Three others were injured.

## DEMOCRATIC TICKET.

FOR CONGRESS,  
HENRY D. ALLEN,  
OF UNION COUNTY.

Bismarck is much improved and  
is now able to sit up.

The order sending Lieut. Desha  
Breckenridge to Santiago has been  
revoked.

The British steamship *Adula*,  
captured by the Maribhead, has  
been held to be a lawful prize.

A Nebraska man with nine wives  
has been caught on the fly while  
trying to make a home run with  
number nine.

Mr. G. W. Reeves, of Ballard  
county, has accepted the Populist  
nomination for Congress in the  
First district.

The Pacific cable will soon con-  
nect the United States with Hawaii,  
the Philippines and China. It will  
cost \$10,000,000 to complete the  
work.

Carl Anderson, a seaman on the  
Brooklyn, was killed by the ex-  
plosion of a Spanish shell upon  
which he was hammering in an ef-  
fort to separate the shell and car-  
tridge.

Senator Deboe has come out in a  
statement urging the Republicans  
to endorse Populist Bud Reeves,  
for Congress, in the First district,  
and not run a candidate of their  
own.

Harold M. Sewall, the present  
Minister to the Hawaiian Islands,  
is likely to be the Governor of the  
new Territory. He is a son of the  
recent Democratic candidate for  
Vice President.

The Senators, who must satisfy any  
treaty made by the President, are  
as a rule in favor of driving a hard  
bargain with Spain. Most of them  
who have been interviewed declare  
that the Philippines also should be  
taken from Spain, to be retained or  
disposed of as Congress may direct.

Prince de Lenoir de Reina, of  
Wellback, wants to marry some  
woman with \$1,000,000 to give him  
for a royal title. He is 62 and  
wants a partner suitable to his ad-  
vanced age. Three New York  
widows are trying to raise the  
money.

The threatened bombardment of  
Cartagena, Columbia, by Italian  
warships, is on account of a claim  
of \$125,000 alleged to be due to Sig-  
nor Cerruti, an Italian subject. The  
matter is being pressed not by  
Cerruti himself, but by some of his  
creditors. The trouble will be set-  
tled by diplomacy without a bom-  
bardment.

The Cincinnati Enquirer com-  
ments on the fact shown by govern-  
ment figures that the consumption  
of whiskey has decreased one-third  
in five years, and says the bicycle  
has helped to do it. Hard times  
has had more to do with it than bi-  
cycles. The use of a great many  
things that cost money has fallen  
off of late years.

The Fifth Illinois regiment, whose  
moving orders were revoked, is still  
considerably demoralized, but every  
effort is being made to get it back  
into shape. The large number of  
men who failed to return to camp  
when the regiment was ordered  
back are being gathered in as rap-  
idly as possible. The majority of  
the missing men are in Chattanooga.

Shafter's troops are to be moved  
from Cuba to Long Island as soon  
as they can with safety be trans-  
ferred. The fact that one-fifth of  
them are down with fevers has  
aroused the administration to the  
necessity of doing something. The  
President now realizes his mistake  
in not putting a little energy into  
the campaign last spring. The ac-  
tual war in Cuba from the landing  
until Spain sued for peace covered  
less than a month and the war  
could have been fought to a finish  
just as well last May.

The July statements of the banks  
of Chattanooga, just published,  
show total deposits of \$3,882,409.77,  
as compared with \$2,962,200.24 at  
the time of the corresponding state-  
ments last year, a gain of \$920,209.  
53, or about 32 per cent. It is esti-  
mated that there has been spent in  
that city by the volunteer army at  
Chickamauga park and by the govern-  
ment for supplies \$1,500,000  
since the Hispano-American war  
began.

Col. J. G. Craddock, writing in the  
*Paris Kentuckian-Citizen*, says:  
"The 1812 war and the Mexican  
war rosters, although printed by  
the State at a cost of \$2,500, and  
sent to every county clerk, have  
disappeared from most of the offices.  
Will not our exchanges call atten-  
tion to this and state it as a heavy  
fine on clerks to allow them to dis-  
appear?"

The Cabinet is pretty evenly  
divided on the question of holding  
the Philippines as conquered terri-  
tory. Those favoring their retention  
are Bliss, Alger, Wilson and per-  
haps Griggs. The President and  
Day are in favor of relinquishing  
all but a coaling station.

## CLIPPED AND COMPILED.

Richmond is to have a cigar fac-  
tory.

Frankfort ice dealers have to pay  
a license of \$50.

Frankfort in two weeks paid \$14.  
16 on its floating debt.

Mad dogs and mad cats have  
created a scare in Warren county.

There is talk of building an elec-  
tric railway between Eminence and  
New Castle.

Vina McDowell, a negro woman  
at Shelbyville, is the mother of  
thirty-two children.

John Walden, an old citizen of  
Harrodsburg, dropped dead in Per-  
ryville. Heart trouble was the  
cause.

A big flow of oil was struck at a  
depth of 100 feet in Allen county,  
just across the Simpson county line.

Martindale is the name of a new  
post-office just established in Han-  
cock county. Squire W. T. Martin  
is named a postmaster.

An unknown man was found dead  
on the river bank near Wickliffe  
with a pistol wound in his breast.  
He is supposed to have been mur-  
dered.

John Henry Bell, a negro, wanted  
in Illinois on several charges of  
housebreaking, escaped jail at Pa-  
ducah. A reward of \$25 has been  
offered for him.

Mayor S. E. Booth, of Lawrence-  
burg, is to resign to accept a \$90  
per month job under the Prison  
Commissioners at the Frankfort  
penitentiary.

The Houtsonville fair offers a  
prize of \$10 for the prettiest baby  
and a premium of \$5 for the ugliest  
man. The association is evidently  
trying to incite a riot.

## The Carter Court-Martial.

In the excitement and bustle caused  
by the war court-martial of  
Capt. Obertin N. Carter of the en-  
gineer corps has been lost sight of  
by the public, although his friends,  
and they are numerous and influential,  
are exerting every possible effort to  
persuade the president and the secretary  
of war to mitigate his sentence, which  
is supposed to be dismial from the  
service in disgrace. The papers are  
now in the hands of Secretary Alger  
for review, but he has had no time  
thus far to examine them. The judge  
advocate general has gone through  
the case with great care and has re-  
commended the approval of the  
verdict of the court, which was "guilty"  
on all specifications.

Capt. Carter was considered one  
of the most brilliant men in the army.  
His record for scholarship and deport-  
ment at West Point was higher than  
that of any other graduate of that in-  
stitution. No man in the army had  
more friends and admirers or possessed  
the confidence of his superiors to a  
higher degree. Nevertheless, after a  
trial that lasted nearly three months,  
Capt. Carter has been found guilty of  
defrauding the government of mil-  
lions of dollars during the last ten or  
twelve years in conspiracy with con-  
tractors who have been engaged un-  
der his direction on the improvement  
of rivers and harbors in the south. If  
the proceedings had not been over-  
shadowed by the preparation for war  
the case would have made a national  
scandal, for it is one of the most  
notable that has ever occurred in the  
history of the army, and has not only  
shown shocking state of corruption  
in the engineer corps, but has dis-  
closed facilities by which the govern-  
ment may be robbed without the  
slightest danger of exposure. Capt.  
Carter's crime might have remained  
concealed forever, but for accidental  
discovery by his successor and the  
confession of his confidential clerk. It  
is not considered probable that with  
the evidence before him the president  
will mitigate the sentence, and it is  
expected that congress at its next ses-  
sion will amend the statutes govern-  
ing river and harbor improvements so  
as to make a repetition of his offense  
impossible.

When the flock is to be culled  
it is a good plan to open the door  
of the poultry house and the se-  
lection made from among those  
which come out last. We have  
noticed that the best hens are  
the ones that come out early and  
stay out late.—Barks and Cack-  
les.

## WAS MISREPRESENTED.

Col. Culver Defended at Washington.

The War Department officials declare most positively that Col. Culver, of the Fifth Illinois volunteer regiment, at Chickamauga, is an innocent victim of misrepresentation. It is reported, from Chickamauga that because this regiment was turned back from the Porto Rican expedition many men had deserted, the morale of the regiment had been destroyed and, the failure to secure active service had been charged up to the secret work of Col. Culver to keep it from going to the front. It is said at the department that, as a matter of fact, the Colonel has done all in his power to meet the demands of the regiment in that respect, but it has been a victim of circumstances over which he had no control.

After the Fifth Illinois had been ordered to Porto Rico a delegation of Indiana people waited on the President and pointed to the fact that although there were three Indiana regiments fully equipped and ready for service, none had been ordered to the front. It happened that, of three Illinois regiments available, two had been sent forward in advance of the Fifth, so the department felt obliged, in order to avoid a charge of discrimination, to substitute one of the Indiana regiments for this particular Illinois regiment. With this order Col. Culver had absolutely nothing to do, and did not even know that it was in contemplation.

## CHANGED THE GROOM.

Varium et Mutabile Semper Femina.

Miss Lizzie Page, the pretty daughter of Thomas Page, the jailer of Webster county, changed her mind at the eleventh hour and eloped with John C. Bailey, a son of Judge Jack Bailey, of Dixon. All arrangements had been made for the ceremony, but Claude Severn was to have been the groom instead of Bailey. Invitations had been sent out for the wedding, which was to have occurred at the bride's home Thursday, but young Bailey, a former sweetheart of the young lady, appeared upon the scene and after long and passionate pleading she consented, and together they appeared for a marriage license, which was refused on account of the young lady not being of legal age. Her father was appealed to for an order to the clerk to grant the license, but he refused and an elopement to Shawneetown was planned and carried out to a successful termination Tuesday.

## Banish the Old Roosters

There is no need of keeping the male bird in the poultry yard during the balance of the summer. No more hatching will be done this summer, and the presence of the male will not in any degree influence the production of eggs. The hens will be benefited by his expulsion. If you have no use for him, kill him and make a potpie of him. If not suited for that, kill him anyway, as a favor to the hens. If he is kept on hand to a later period, he may intrude himself into a coop of nice young cockerels that are being sent to market, and disfigure the whole outfit. Tough, warty old roosters should not be allowed to get into such company, but, owing to a curious kind of blindness on the part of the owners, they are continually doing it. A good way to prevent this is to kill the old roosters when you are sure that they can be of no further service to you, and bury them deep in the manure heap, if you can find no better use for them. They will always be worth more money to you there than in a coop of good market poultry.—The Poultry Messenger.

Contrary to the usual opinion there are but few breeds of fowls that pay better according to cost than guineas. The flesh of the white guinea is excellent, and they lay a large number of eggs.

The Madison County Fiscal Court has authorized the purchase of ten acres of land to be used as a potter's field. A pest-house will also be erected on the property.

## EQUIPPING THE ARMY MULE.

Packing is a Science, and an Expert at It Makes Money.

Packers were engaged in sorting out mules for their use and fitting the pack furniture. Most of the mules were fitted with the Mexican sarajo, which is preferred to the saddle with "tree and sawback."

It consists, first, of two or more thick felt blankets folded large enough to nearly cover the mule from shoulder to rump. Over this is placed a huge pair of leather bags united by a broad band of the same material, the cavities stuffed with soft hay.

This is girthed to the mule by a cinch nearly a foot in width, which is drawn as tightly as possible by a strong man, pulling with both hands and with a foot against the animal's ribs to give him a greater purchase. On each side of the spine the articles to be carried are placed and lashed by a rope about 50 feet in length, which has at one end a broad webbing belt to pass under the belly, as was done with the others. Another "squeeze" is given and the rope is crossed in different directions over the load, tightened at every crossing, and finally fastened in a knot loosed by one pull.

"Packing" is a science, and as such commands good wages. I have known a "chief packer" to be paid a salary of \$150 per month on the frontier, and his services were worth the money paid. The duty is taught to cavalrymen as part of their drill, and many of the soldiers become very expert at it. At a pack drill of the Ninth cavalry a few days before it left Montana one company packed its mule in one minute and fifty-four seconds, and others were but little slower.

Thirty mules generally constitute a "train," and are managed by three men. They are trained to follow a bell, worn by a horse, white preferred, as being more readily seen. They are not confined in any way except when first put into the train; then any straying from it is punished very severely, and Mr. Mule soon learns his place and that it is best to keep it.

Each man with a train carries a diamond-shaped leather blind with leather cords attached to the ends and knotted together. If a back becomes disarranged two of the men lead the mule out of the train, handfold him with this blind, rearrange his load, remove the leather and allow him to rejoin his fellows. He is never struck when started, and pack mules are never misused by good packers.—Boston Journal.

## HELLENIC ART.

Differs in One Respect from That of Other Nations.

Hellenic art differs in one very important respect from that of other nations, whether in ancient or modern times, in that it was not long confined to any close profession or privileged class, but was the profession of the whole Greek people. It was the genuine product of that peculiar Greek nature and temperament which only recognized the good as the beautiful, and the beautiful as the good; which made no distinction between the form and the soul, embodied between beauty and truth; and which was ever seeking for the most natural and beautiful expression of sublime conceptions and tender emotions. Born in Heaven, reared amid the fairest scenes of earth, and quickened by a vivid sense of beauty, Hellenic art was in its earliest years the companion of poetry and the handmaid of religion. It was at the same time natural in the case of such a people as the Greeks, and in the highest degree fortunate that their religious system was in the main the creation of their poets, in whom clearness of vision, force and brilliancy of imagination, exquisite sense of harmony and beauty were leading characteristics. The poets, and especially Homer, gave a definite and appropriate shape to the powers of the rule in eternal nature, and in the human heart, and expressed their eternal operations as personal acts and eventful histories. Poetry and religion combined to create a new world of gods and heroes from which plastic art derived its inspiration, its types and models, and by endowing them with a visible, tangible form, gave the desired expression to thoughts and feelings common to the whole Greek race. The insight and the skill with which Greek artists embodied the conceptions of the poets are abundantly attested by the fact that the outlines of the types which they drew in that early age have not even yet been obliterated by the wear of centuries from the imaginations and the hearts of men.—Architect Gazette.

## RESOLUTIONS

Adopted by the County Teachers Institute.

The Institute Adjourned Last Evening After a Successful Meeting.

The Teachers Institute, before adjourning Friday evening, adopted these resolutions:

Resolved. 1. That the teachers of this county, endorse the citizens of Hopkinsville in their efforts to secure the Southern Normal School and Business College.

2. That we commend the act of State Sup't. Davidson by which he prevented the schools of the city of Louisville from using money that rightly belongs to the public schools of the State at large and thereby increasing the per capita.

3. That we respectfully ask the County Superintendent to hold the institute for the year 1899, in September or October.

4. That in order to increase our enthusiasm and to create more interest in the work, we obligate ourselves to attend the meeting of the County Association during the present school year.

5. That since attending the County Association the teacher must incur some expense, otherwise unnecessary, we earnestly ask the County Superintendent to have the associations held on Friday instead of Saturday.

6. That we endorse the administration of our County Superintendent, Miss Katie McDaniel, and that we hereby express our confidence in her ability and purpose to administer affairs to the best interest of the schools of the county.

7. That we extend our thanks to the people of Hopkinsville for the kindness shown the teachers during the week, and especially to those of the Methodist and Christian churches for the use of their buildings, and to all who in any way contributed to the success of our Institute.

8. That we cannot express too emphatically our appreciation of the excellent work done by Prof. J. C. Willis in instructing the institute, and we have found in him not only a very superior instructor, but also a sympathetic friend of the humblest and most inexperienced teacher. His presence with us has been an inspiration and an uplifting force that will surely bear good fruit in every school in Christian county.

W. O. GRAY,  
Chairman.

### Aged Eighty-Four.

Mrs. Mary Knight, one of the oldest ladies in Christian county, died at her home six miles north of the city yesterday afternoon, after a long illness. She was the widow of the late Jas. Knight, who preceded her to the grave only three months ago. Mrs. Knight was eighty-four years old and had been a consistent member of the Baptist church for nearly three quarters of a century. The remains were interred in the family burying ground at 3 o'clock this afternoon.

### Gus Hite Has Escaped.

The Clarksville Times says an officer of that city returning from Nashville says that Gus Hite, the notorious train robber, who was serving a term of fifteen years in the penitentiary, had escaped, and was now at large. He managed to get out of the pen some time ago, but has not been recaptured.

### Death of Agent Corbin's Child.

A four-year-old daughter of Mr. Corbin, ticket agent at Guthrie, died at Carbonade, Tenn., Thursday. Mr. Corbin had gone to the latter place with his family to act as operator for the railroad company for a few days and the child was taken ill and died rather suddenly.

### Died of Typhoid Fever.

Mr. John B. Everett, Jr., a prominent young farmer of the Fairview neighborhood, died of typhoid fever yesterday, after an illness of about three weeks. He was about eighteen years old and very popular with all of his associates. The interment took place this afternoon at the family burying ground, two miles north of Fairview.

## EARLY RESPONSES

To the Battleship Appeal Are Wanted.

Another Circular Letter Sent Out By the Committee to the Mayors.

The Battleship Committee having in charge the purchase by popular subscription of a Silver Service for the Kentucky has addressed the following letter to all Mayors in the State:

DEAR SIR:—

I desire to call your attention to the enclosed circular letter which I have caused to be widely distributed over the State. I want to ask you to use your influence with your City Government to the end that they may make a liberal contribution. We desire to record in our souvenir book the record of a contribution from every important town in the State. When you send in the contribution from your town we would be glad to have you write a brief statement of your town giving such advantages as it may seem to possess.

This statement will be published in the book along with your subscription. If the contributions will permit we will make large distribution of the book; thus it will be valuable not only as a souvenir, but as an advertisement to the towns who contribute.

Allow me to impress upon you the importance of early action, because the committee does not care to make any contract for silver service, or the book, until they have some knowledge as regards the amount they will be permitted to expend.

Address all communications to me at Room 16, Board of Trade.

Yours truly,

HARVEY WEISBERG,  
Chairman Finance Committee.

## WIVES AND CHILDREN

Of Spanish Soldiers to be Sent Home Free.

To the Number of Seven Hundred and Fifty From the Town of Manzanillo.

Santiago, July 28 (Delayed in transmission).—It is expected that all the Spanish prisoners of war will be embarked by August 15.

The American commander has authorized the Spanish officers who commanded the troops that came to Santiago during the siege from Manzanillo to send for their wives and families, in order that they may be able to take them back to Spain at the Government's expense. In all there are about 750 women and children.

The telegraph operator at Manzanillo notified the authorities here that Captain General Blanco at first refused to permit the delivery of messages sent by these officers to their families, but later, under a protest from Gen. Shafter, the Captain General allowed the messages to be delivered.

### Goes into Effect August 1.

The law with reference to mixed flour goes into effect August 1. The penalties for its violation are quite severe. Most of the mixed flours consist of wheat flour 70 to 80 per cent. mixed with 20 to 30 per cent. of corn flour, but there are flours which are pure wheat flours but contain a small per cent. of chemicals which aid the dough in rising and makes a lighter bread. These are also mixed flours and come under the law the same as the flours made of corn and wheat, as the law says "mixed flours shall be understood to mean the food product made from wheat mixed or blended in whole or in part with any other grain or other material, or the manufactured product of any other grain or other material than wheat."

### A Fine Trap.

The handsomest thing in the way of a vehicle can be seen at Foley's repository on Main street. It is a trap made by F. A. Ames & Co., of Owensboro, Ky. This trap, without a doubt, is the finest job this side of Louisville. Many good judges of fine vehicles have freely expressed their opinion by saying that it is the finest job they ever saw. Foley & Co. are not only up-to-date on traps, but lead in style in vehicles of all kinds. Go see them.

### A Colored Musician.

A musical entertainment will be given in the city August 8th for the colored people. The Henderson correspondent of the Major has this notice of the singer:

Miss M. Louise Clay, the renowned vocalist, who is visiting in the city, will entertain the people of Hopkinsville Monday evening, August 8th. We need not say to our friends how well she sings, but will say no one should fail to hear her, for once heard will demonstrate her ability.

### A Merited Promotion.

Mr. Percy Kelly, who has for the past three months been night watchman here for the I. C. road, has given a promotion as fireman on the same road, with headquarters at Paducah. Mr. Kelly left this morning for the latter place to assume his new duties. He is a very clever young man and made many friends during his stay here.

### Commonwealth Case Continued.

The case of the Commonwealth against Mr. Geo. W. Smith charged with a breach of the peace, was called before Judge Cansler this morning and continued until August 6, on account of the absence of some of the witnesses. Mr. Smith and Mr. Harvey Hayes had a difficulty a few days ago and Hayes swore out a warrant and had Smith arrested. He gave bond for his appearance to answer the charge.

### Almost a Tragedy.

Miss Mary Morrow and her younger sister had a very narrow escape from death on the railroad crossing near the intersection of the Walnut street and the Clarksville pike yesterday evening.

They were crossing the track as the 5:13 passenger train appeared around the curve. Miss Morrow first tried to back off the track but failed to make the horse respond, and then decided to whip him across, which she did by such a narrow margin that the engine barely missed the hind wheels of her buggy. It was a very close call.
